INTRODUCTION

On January 1, 2017, the New Mexico Taxation and Revenue Department (TRD) begins the 2016 income tax filing season. This guide addresses issues specific to those who prepare New Mexico income tax returns. The advice in this guide is intended to help new and returning tax return preparers, Electronic Return Originators (EROs), and Fed/State transmitters e-file their clients' returns in the most efficient, cost-effective way possible.

What's New

This section summarizes the latest information about new initiatives, the cooperative e-filing effort called Federal/State Electronic e-file (Fed/State), Taxpayer Access Point (TAP), and recent legislation.

Message From The Secretary

The state of New Mexico is requesting additional information this filing season in an effort to combat stolen-identity tax fraud and ensure that a taxpayer's hard-earned tax refund goes to the correct person. TRD asks taxpayers to provide the requested information from their driver's licenses or state-issued identification card. If the information isn't provided, significant delays could occur in processing the return.

E-File And E-Pay Options Include Business Income Taxes

New Mexico's Taxation and Revenue Department (NM TRD) began working with a limited set of third-party tax preparation software developers to develop e-file and e-pay for 2014 business income tax returns through Fed/State. You may now e-file and e-pay the following 2016 New Mexico business income tax forms through third-party tax software:

- Corporate Income and Franchise Tax
- Sub-Chapter S Corporate Income and Franchise Tax
- Pass-Through Entity Information Report
- Form RPD-41367, Annual Withholding of Net Income from a Pass-Through Entity Detail Report (PTW)

Processing e-filed business income tax returns is proceeding well, driving improved processing efficiency and reduced return handling time. NM TRD expects to expand the number of third-party software solutions certified for these new e-file and e-pay programs in future tax years as more and more taxpayers and tax practitioners enjoy the benefits of e-file and e-pay.

E-file and e-pay for 2016 business income tax returns is available through third-party software solutions, and by using TAP on NM TRD's website. TAP also offers e-file and e-pay for 2016 fiduciary income tax returns.

Recent Initiative

New Mexico added e-file and e-pay for 2015 fiduciary income tax returns through Fed/State. For the first year of development, typically few software companies develop a program for Fed/State. Ask your software company whether they intend to support 2016 fiduciary income tax returns through Fed/State.

Moving Web Files And Payment Applications Into TAP

TRD continues to expand e-file and e-pay options through TAP. Effective July 10, 2015, taxpayers can e-file and e-pay for these programs:

- Combined Reporting System (CRS)
- Combined Fuel Tax (CFT)
- Corporate Income Tax (CIT)
- Fiduciary Income Tax (FID)
- International Fuel Tax (IFTA)
- Liquor Excise Tax (LIQ)
- Oil and Gas Proceeds (OGP-D)
- Pass-Through Entity (PTE)
- Pass-Through Entity Withholding (PTW-D)
- Personal Income Tax (PIT)
- S-Corporate Income and Franchise Tax (S-Corp)
- Weight Distance Tax and Permits (WDT)
- Workers' Compensation Fee (WKC)

Effective July 10, 2015, taxpayers may view and pay for:

- Alternative Fuels Excise Tax (AFT)
- Bingo and Raffle Tax (BRT)
- Cigarette Tax (CIG)
- Conservation Tax (CNS)
- E911 Services Surcharge (911)
- Gaming Manufacturer and Distributor Tax (GMD)
- Gaming Operator Tax (GMO)
- Local Liquor Excise Tax (LLQ)
- Private Railroad Car Tax (PRC)
- Resource Excise Tax (RES)
- Severance Tax (SEV)
- Telecommunications Relay Service Surcharge (TRS)
- Tobacco Products Tax (TPT)
- Water Conservation Fee (H2O)

Accessing E-File And E-Pay Services

To access TRD's e-file and e-pay services, go to www.tax.newmexico.gov and click **VISIT OUR ONLINE SERVICES PAGE**. Then click the link for the New Mexico web service you need.

Tax Law Changes

For details about New Mexico tax law changes enacted during 2016, see Publication B-100.28, *2016 Legislative Summary*. Legislative summaries are available for each year, providing a brief description of new legislation affecting TRD. To see these summaries, visit our website at www.tax.newmexico.gov and click **FORMS & PUBLICATIONS**. Then click the **Publications** folder, then **Bulletins**, then **100 Series-General Information**, and then **2016-B-100.28 Legislative Summary**.

Filing Methods

New Mexico offers taxpayers a choice between filing their New Mexico income tax returns in the traditional paper format, and using computers to e-file returns and e-pay tax payments.

TRD encourages all taxpayers and tax preparers to e-file and e-pay whenever possible. E-file provides the fastest turnaround for a refund and saves tax dollars. E-file and e-pay are fast, safe, and secure. See *Benefits Of E-File and E-Pay* on page 16.

IMPORTANT: When you submit a paper income tax return, you must also attach W-2s and other supporting documentation required by instruction.

Where To Get Forms

You can download paper forms, instructions, and publications from the TRD website at www.tax.newmexico.gov using Adobe Acrobat. You can also get forms, instructions, and publications from your local district office. For the location of local district offices, see page 5.

TRD Internet Website

TRD's e-file and e-pay services let taxpayers and tax preparers use the TRD Internet website to electronically complete and submit 2016 New Mexico income tax returns. Visit our Internet website at <https://tap.state.nm.us>. E-file and e-pay for the immediate three prior-year PIT returns are available. You may also use the website to amend returns.

Fed/State Electronic Filing Program

You may purchase or access e-file and e-pay third-party software to complete tax returns on personal computers and submit the return to TRD through Fed/State. You can also use third-party software to print a New Mexico income tax return for submission to TRD. For information about using the federal e-file program, visit the Internal Revenue Service (IRS) website at www.irs.gov.

Through a cooperative Fed/State e-file and e-pay effort, you can transmit a federal income tax return and the New Mexico income tax return through the Internet using software or an e-file and e-pay program. The returns are submitted through the Modernized e-File (MeF) Program. You can submit the returns together or separately. Both the IRS and TRD acknowledge receipt of returns e-filed through Fed/State.

NOTE: A payment made to TRD through the Fed/State program must come from a checking account. New Mexico TRD can't accept a payment from a savings account.

- General help with TAP e-file and e-pay: TRD-TaxReturnHelp@state.nm.us

Writing To Request Information

If you want to write to us, please address your letter to the address included in the instructions for the tax program. For personal income tax, use this address:

New Mexico Taxation and Revenue Department
P.O. Box 25122
Santa Fe, NM 87504-5122

If you write for information or to order forms after April 1, don't expect to receive the forms or a response to your correspondence before April 18. You can get a faster response by calling or using the email and phone options noted earlier.

TAP Services

TAP's secure e-file and e-pay resources let taxpayers and tax preparers, if approved by the taxpayer, do the following:

- Review return payment and refund information.
- E-pay existing tax liabilities.
- Check the status of a refund.
- Change contact information.
- Register a business.

TAP now allows access to 26 tax programs, including PIT and gross receipts (also called CRS) tax programs.

Getting The Status Of A Refund

Refund status is available after refunds are processed. To get the status of your refund, do one of the following:

- Go to www.tax.newmexico.gov and when the top left text scrolls to **Where's my refund?**, click **LEARN MORE** to go to TAP. Then click **Where's My Refund?** To see the status, you need your social security number (SSN) or Individual Taxpayer Identification Number (ITIN) and the refund amount.
- Log in to your TAP account to get more information.

If you don't see the status of your refund using these methods, check the expected processing times listed next and try again later:

- For e-filed returns, please wait 4 weeks before calling. TRD processes e-filed returns in 4 weeks or less.
- For paper returns or applications for a tax refund, please wait 12 weeks before calling TRD. TRD processes paper returns and applications for tax refunds within 8 to 12 weeks.

If the time has passed for your refund to be processed, and you still can't see the status of your refund, call us at (866) 285-2996 or (505) 841-6352.

IMPORTANT: TRD has substantially increased its enforcement efforts to combat identity theft and refund fraud. This enhanced review process could increase the time it takes to process your tax refund, and additional documentation may be required from you to verify your refund claim. Thank you for your patience and cooperation with our efforts to protect your identity and your tax dollars.

Managing Accounts Through TAP

New Mexico's TAP is a secure resource that lets taxpayers check the status of tax accounts, make payments, change addresses, and register businesses. To access TAP, go to www.tax.newmexico.gov and click **VISIT OUR ONLINE SERVICES PAGE**. Then click .

NOTE: To check the status of a refund, click **Where's My Refund?** If you have the SSN or ITIN and the correct amount of refund due, you don't need to register for a login to check the status.

Access to certain services in TAP requires you to register for a login user name and password, and provide specific information about the taxpayer. To register for access to TAP you need both of the following:

- Your Federal Employer Identification Number (FEIN), ITIN, or SSN.
- An email address

If you have enough detail about your client's account, and your client's approval, you may also use TAP to view other taxpayer records.

PIT RETURN INFORMATION

The next part of this guide gives information about PIT returns only.

Tax Preparer E-Filing Requirements

Paid tax practitioners who prepare more than 25 New Mexico PIT returns must ensure that each return is submitted using TRD-approved electronic media, unless the taxpayer whose return is prepared requests otherwise. TRD assesses a \$5 penalty per return for each PIT return for which a preparer fails to comply with this requirement.

The requirement applies only to returns filed for the tax year immediately preceding the calendar year when filed. E-file a return at <http://www.tax.newmexico.gov/Online-Services/> or transmit it through the Internet using an approved software or e-file and e-pay program that e-files the return through Fed/State.

A taxpayer whose return is prepared may waive the preparer's requirement to file by electronic media. The preparer must have on file a signed Form RPD-41338, *Taxpayer Waiver for Preparers Electronic Filing Requirement*, **and** must mark the box in the **Paid preparer's use only** section of the return to indicate the form is on file. RPD-41338 is available at www.tax.newmexico.gov.

A tax return preparer is a person who prepares New Mexico PIT returns for others for compensation or who employs one or more persons to prepare such returns for others for compensation. New Mexico uses the FEIN or Preparer Tax Identification Number (PTIN) to identify the tax return preparer.

TRD-approved electronic media includes a New Mexico PIT return e-filed or submitted on paper with a 2D barcode printed on Form PIT-1 that contains the taxpayer's tax return information. The information in the 2D barcode is captured electronically.

For questions about the tax preparer requirement, go to www.tax.newmexico.gov, click **TAX PROFESSIONALS**, then **E-FILING MANDATES**, and then **Overview**.

Tax Preparer Signature Requirements

On PIT-1, page 2 is the **Paid preparers use only** section. **Paid tax preparers must fill out this section and sign the tax returns they prepare.** The preparer may sign by hand or any other method of electronic signature acceptable to the IRS. Tax preparers who don't charge for preparing tax returns don't need to sign the return.

Paid preparers must enter their 11-digit New Mexico CRS identification number,* FEIN (if applicable), and an IRS-issued PTIN. A penalty is imposed for failure to comply, as described in the next section.

*A paid preparer who isn't required to have a New Mexico CRS identification number isn't required to complete this field. Generally, persons are not required to obtain a CRS identification number unless they perform services in New Mexico, have an employee or a business location in New Mexico, sell property in New Mexico, or lease property employed in New Mexico.

Tax Preparer Detection And Disclosure of Suspicious Activity

This section gives guidelines for reporting tax fraud and describes the three ways to report tax fraud.

Guidelines For Reporting Tax Fraud

Your tips are important. By helping us crack down on tax fraud, you help make sure everyone in New Mexico pays their fair share of taxes. Those taxes pay for the public services our state provides.

Three Ways To Report Tax Fraud

You can report tax fraud using any of these ways:

- Call the 24-hour New Mexico Tax Fraud Hotline at (866) 457-6789.
- Send an email to Tax.Fraud@state.nm.us.
- Download the [Fraud Information Report](#) . Complete the form and mail or fax it to:

New Mexico Taxation and Revenue Department
Tax Fraud Investigations Division
P.O. Box 8487
Albuquerque, NM 87198
Fax Number: (505) 841-5581

To report federal tax fraud to the [Internal Revenue Service](#), call their hotline at (800) 829-0433.

Please include as much information as you can to assist in investigating any complaint of tax fraud.

In the course of tax return preparation, a tax return preparer, as defined in IRC (Internal Revenue Code) Section 7701(a)(36), may use any tax return information provided by a taxpayer, whether in and for the current year or prior years, for the purpose of identifying a suspicious or potentially fraudulent return from or related to that taxpayer. For these purposes, tax return information means any and all documents or materials provided by the taxpayer or required by the taxing authority that the tax preparer uses in the course of return preparation and submission.

TRD requests tax return preparers to report suspicious activity as soon as possible, but not later than within a week of detection of the suspicious activity. Timely reporting helps prevent tax fraud.

Additionally, information about the use of systems and software and about transmission of an e-filed tax return is disclosed to TRD. This information helps identify suspicious activity and fraudulent returns.

Other Tax Preparer Requirements And Penalties

TRD assesses a penalty of \$25 per return or claim for refund to a paid preparer who fails to do either or both of the following:

- Sign the tax return or claim for refund.
- Include the paid preparer's identifying numbers.

TRD assesses a penalty of **\$500** per return for any tax return preparer who endorses or otherwise negotiates, either directly or through an agent, any refund check issued to a taxpayer.

Criminal Penalties

Any person who willfully, with intent to evade or defeat the payment or collection of any tax, does **any** of the following is guilty of a felony and subject to criminal penalties:

- Falsifies any return, statement, or other document
- Willfully assists, procures, advises, or counsels the filing of a false return, statement, or document
- E-files any return, knowing the information on the return is not true and correct as to every material matter
- Removes, conceals, or releases or aids in the removal, concealment, or release of any property on which a levy is authorized by TRD

Upon conviction, criminal penalty may be imposed of not more than \$5,000 or imprisonment of not less than 6 months or more than 3 years, or both, together with costs of prosecution.

Error-Free Processing

A fully completed, accurately computed, legible return is processed the fastest. Returns with errors require manual review and may delay refunds. TRD issues refunds from error-free, e-filed returns within 6 weeks of TRD's receipt. When the return information requires manual review, refunds for e-filed returns may be delayed for 6 to 8 weeks. Refunds for paper returns may be delayed for 8 weeks, and 12 weeks during April and May.

Generally, delays occur because return information is incomplete, incorrect, or doesn't match information in our records. It's important to follow the directions for the return, complete all required fields, check your figures, include all required schedules, and make sure the return is legible.

Reasons For Delays And Other Common Errors

- An incorrect mailing address. The taxpayer's address on the return must be **correct** and **current**.
 - Incorrect or missing SSN or ITIN. TRD sends these returns back to the taxpayer without processing.
 - An incorrect date format for the dependent's date of birth. The correct format is MM/DD/CCYY.
 - Missing dependent's SSN or date of birth.
 - An incomplete return.
 - Attaching a worksheet instead of completing the correct schedule or form.
 - Incorrectly claiming an exemption, deduction, or credit.
 - Claiming a rebate or credits on Schedule PIT-RC, but not answering the qualifying questions required in Section I.
 - Missing attachments and supporting documents. When you submit a paper income tax return, you must also attach W-2s and other supporting documentation required by instruction.
- NOTE:** Income and withholding information isn't included in the 2D barcode.
- Payments reported on the return that don't match payments in the TRD system.
 - A poor quality printed form.
 - Failure to report all income from lines 1 to 7 on Schedule PIT-B, column 2, when the taxpayer is a New Mexico resident. This income must be allocated to New Mexico on PIT-B.

Other Reasons For Delays And More Common Errors

- Submitting a duplicate return. Check the status of the original return before submitting a duplicate.
- Submitting amended returns without supporting schedules.
- Providing incorrect banking account information.
- Providing an incorrect mailing address.
- Not answering all questions to request a Refund Express direct deposit.
- When a paper return doesn't include a 2D barcode, tax preparers not marking the box to indicate they have an RPD-41338 on file. Pursuant to the tax preparer e-filing mandate, TRD may impose a \$5 penalty.
- Paid tax preparers not completing the **Paid preparers use only** section on PIT-1, page 2.
- Paid tax preparers not entering their complete PTIN in the **Paid preparers use only** section on PIT-1, page 2.
- Making changes to a return with a 2D barcode without refreshing the return in the software product to record the changes in the 2D barcode. If you enter direct deposit information on the return and print the return without refreshing it, the direct deposit information isn't added to the barcode.

- Submitting forms from a software product that are drafts or unapproved.
- Electronically altering or photo shopping a barcode for a different year.
- If the medical expense deduction doesn't further reduce a taxpayer's taxable income, reporting the medical expense deduction on the return delays the taxpayers refund. TRD staff review all medical expense deductions.

If TRD needs additional information to resolve a question or error on the return, TRD may contact the taxpayer or paid tax preparer directly.

Amended PIT Returns

Any changes to New Mexico taxable income, credits, or rebates, and changes to federal taxable income require an amended New Mexico PIT return for the same year. For tax years beginning January 1, 2005 or after, you must file Form PIT-X for the applicable tax year. For tax years beginning before January 1, 2005, you must file amended returns using the forms for the appropriate tax year. If no amended box is present on the form, you must write **AMENDED** at the top of the form.

When filing an amended return, you must also attach all required schedules (such as PIT-S, PIT-ADJ, PIT-RC, PIT-B, PIT-CR, and PIT-D), even if the amounts did not change from the originally filed return. When you submit an amended paper income tax return, you must also attach other supporting documentation required by instruction.

NOTE: Unless you're amending your New Mexico return to change the amount of withholding reported, you don't need to file forms W-2 and similar information forms.

Approved Software

TRD approves companies that follow specifications and format requirements for e-filing or reproducing a paper 2016 New Mexico income tax form. Acceptance of the software company doesn't imply endorsement by TRD or assurance of the quality of the company's services.

New Mexico annually publishes a list of approved substitute form vendors and Fed/State software companies. Approvals must be performed annually for each new tax year. TRD publishes the list of approved software companies at the beginning of the filing season. The list indicates whether the software product has been approved to support e-filing the PIT-1 return, printing the PIT-1 return, and printing the PDF214 2D barcode on PIT-1, page 2.

For an explanation of the benefits of using the PDF214 2D barcode on the PIT-1 return, see *Using Barcodes* on page 14.

To see the list of approved vendors and software companies, visit TRD's website at www.tax.newmexico.gov and click **TAX PROFESSIONALS, Overview**, and then click **Software Developers**. Under the Helpful Documents section, click on *Approved Software for Online Filing 2016 Income Tax Forms*.

Authorized Representative

By meeting the requirements described here, taxpayers may designate another person to represent them on tax-related matters. The taxpayer can make a request for one year or multiple years. To authorize another person as a representative, the taxpayer must provide written authorization to TRD. The written authorization must satisfy all three of these requirements:

- Be in writing
- Contain sufficient information for TRD to identify the taxpayer and the taxpayer's representative
- Be signed by the taxpayer

To get authorization, the taxpayer must complete Form ACD-31102, *Tax Information Authorization*, or provide a similar document satisfying all three listed requirements. If presented with proper authorization from the representative, the Secretary of TRD or a TRD employee may reveal information about a return to the authorized person.

If the Secretary or employee has reason to question the continued validity of the authorization to represent the taxpayer, the Secretary or employee may ask the taxpayer whether the authorization remains valid.

Refund Anticipation Loans

A Refund Anticipation Loan (RAL) allows a taxpayer to borrow money with an anticipated income tax refund as security. TRD isn't a party to RALs. RALs are contracts between taxpayers and lenders.

The TRD acknowledgement that a taxpayer's return is accepted for processing isn't a guarantee to either the taxpayer or the lender that the taxpayer will receive a refund or that TRD guarantees the amount of the refund. TRD doesn't guarantee a specific date of refund issuance or the issuance of the anticipated refund amount, and doesn't accept inquiries from financial institutions concerning the issuance or amount of refunds. TRD is not liable for any loss suffered by the taxpayer, the ERO, or the financial institution as a result of an RAL.

Any entity providing RALs must explain to taxpayers applying for RALs that an RAL is an interest-bearing loan, not a faster way to receive income tax refunds.

Responsibilities of Tax Practitioners

All tax preparers, EROs, and Fed/State transmitters accept specific responsibilities regarding filing New Mexico PIT returns. Tax practitioners must do the following:

- Comply with the requirements set forth in this guide and with the requirements and procedures set by the IRS.
- Maintain a high degree of integrity, compliance, and accuracy.
- Examine two forms of taxpayer identification before preparing returns or accepting returns to e-file.

- Be alert to suspicious e-filing transactions and report them to the local New Mexico TRD district office.
- Provide instruction to taxpayers for filing the return and paying any tax due, including providing the **correct TRD payment voucher** if taxpayers don't choose direct debit.
- Retain records of returns for three years.
- Identify the paid preparer in the appropriate fields of the paper or e-file return.
- Furnish the taxpayer with copies of the signed Form PIT-8453, *Individual Income Tax Declaration for Electronic Filing and Transmittal*, Forms W-2 and 1099, and any other documents the taxpayer included with the return as supporting material for the taxpayer's records.
- Monitor e-filing at branch offices of the ERO's firm to ensure compliance with all New Mexico TRD requirements.
- Stress to taxpayers the importance of supplying correct information.
- Ensure the security of all returns and documents related to the taxpayer's return.

ABOUT PAPER RETURNS

This section gives information about reproduction of forms and substitute forms, quality standards required for forms, and barcodes.

NOTE: When you submit a paper income tax return, you must also attach W-2s and other supporting documentation required by instruction.

Reproduction of New Mexico State Tax Forms

Any person who wants to create a New Mexico TRD state tax form for their own use or for use by others must receive approval to generate a substitute form. A substitute form is any form produced and made available for use by any person or business other than TRD. A substitute form must meet TRD requirements and must be approved by TRD before use. TRD reserves the right to reject substitute forms that don't meet TRD requirements.

For more information on specifications and approval procedures, go to the TRD website at www.tax.newmexico.gov.

To find the publication, *General Specifications for the Reproduction of New Mexico State Tax Forms*, click **TAX PROFESSIONALS, Overview**, then click **Software Developers**. Under **Helpful Documents**, click the name of the publication.

To find the list of form vendors and software developers approved to reproduce New Mexico state tax forms, click **TAX PROFESSIONALS, Overview**, then click **Software Developers**. Under **Helpful Documents**, click *Approved Software for Reproducing 2016 Income Tax Forms*.

Quality Standards For Forms

Submit only high-quality, printed, **original** forms to TRD. A poor print or photocopy of a form from the TRD website or an approved software product delays processing the return and any refund due.

TRD uses scanning equipment to process tax forms. The barcodes and scanlines used on the forms require exact placement on the page and must adhere to certain printing standards. Don't submit a photocopy of forms provided by TRD, whether obtained directly from TRD or downloaded from the TRD website. When using any New Mexico-approved, computer-generated personal income tax form, you must comply with the printing and legibility requirements of the software developer.

HINT: If a printer can print a logo clearly, it can print a quality tax form. Never submit a photocopy of a form the software generates.

Don't Alter The Form In Any Way

A TRD-supplied or approved form altered by a taxpayer or tax preparer may be rejected.

- Don't alter a form's title to indicate the next year. For example, don't change the tax year of a form from 2015 to 2016. Don't use a 2015 income tax form to file a 2016 tax return because TRD can't process them.
- Don't cut a form except where specifically shown to cut. On most payment vouchers, you're specifically directed to cut the form before submitting it to TRD with the payment. **Cut the form only on the dotted line.**
- Don't submit forms with watermarks. Some examples of watermarks are **Do Not File** and **Pending Approval**.
- When payment vouchers contain a scanline, don't write in the area around the scanline.

Paper

Print forms on 8½ by 11-inch white paper. The minimum paper weight for forms is 20-pound bond. Printers and copiers have much less trouble with this weight than with lighter weight papers. To ensure a quality form, avoid using recycled paper.

Printing Options

Use only single-sided printing with portrait paper orientation. Set the printer's **Paper Scaling** to **None** or **Actual**, depending upon your printer.

Ink or Toner

Make sure the ink or toner cartridge isn't low, which results in a faded print image. Don't change the color of the text on the printed form. Forms supplied by TRD use black and blue ink. Software forms use black ink only.

Using Barcodes

New Mexico uses two types of barcodes on its PIT forms. All principal forms and schedules require a form barcode (3 of 9 barcode) printed in the upper right-hand corner of the page. This allows the scanner to identify the form. The tax year, the form, and the source of the form are identified in the form barcode.

This is an example, not the actual size, of a form barcode.

The PDF417 or 2D barcode prints only on PIT-1, page 2, under the form barcode. This is an example, not the actual size, of a 2D barcode.

The 2D barcode is optional for the PIT form. However, TRD strongly recommends you to use a software program that supports the 2D barcode on the scannable PIT form. The advantages of using a form with the 2D barcode includes, but isn't limited to, faster processing of the paper form and fewer data entry errors. The 2D barcode contains the taxpayer's return information, directly uploaded from the entries on the form.

If the 2D barcode isn't read because printer considerations weren't followed when printing the form, TRD routes the form for manual data entry which causes a delay for the taxpayer. A properly printed 2D barcode reduces the amount of time required to process a return, and results in a faster refund for the taxpayer.

IMPORTANT: If you need to make changes to the PIT-1 or to one of its schedules after the software product printed the return with the 2D barcode on PIT-1, page 2, don't handwrite those changes on the form. Handwritten changes are not recorded in the 2D barcode. It's important to go back into the software product, make the changes, and then reprint the form so the 2D barcode contains your changes.

PIT-1 With 2D Barcode

Check with tax preparation software developers to see if they support printing the 2D barcode for the 2016 PIT-1 return. You can also visit our website to see a list of software approved by NM TRD.

ABOUT E-FILING

This section covers information about e-filing, including the benefits, how to qualify, backup documentation, receipt acknowledgements, and return rejects and their error codes.

Benefits Of E-File And E-Pay

E-file and e-pay are fast, safe, and secure. They minimize errors and delays associated with manual handling and data entry of tax forms. E-file and e-pay save tax dollars. And an e-file return can't be lost in the mail. E-filed returns also have a much higher accuracy rate because the software alerts the preparer to obvious errors. Consequently, returns are processed quicker, resulting in the fastest possible refund.

CAUTION: E-filing returns isn't the same as preparing, printing, and filing them in paper format. When you submit a paper income tax return, you must also attach your W-2s and other supporting documentation required by instruction.

Additionally, the due date for calendar-year filers who **e-file and e-pay is May 1, 2016**. No penalty and interest are due before May 1. The filing deadline for paper 2016 PIT returns and payments is April 18, 2017.

Generally, for a paper return received at TRD early in the tax season, it takes 6 to 8 weeks before the taxpayer receives a refund. If a paper return is filed after March 15, 2017, the taxpayer may not receive a refund for up to 12 weeks. As part of TRD's commitment to provide high quality customer service and minimize processing costs, TRD has set a goal to process error-free, e-filed PIT returns within 6 weeks of receipt. This means TRD issues **a refund within 6 weeks** of receiving an **error-free** return that shows a refund due.

TRD continues to offer Refund Express and e-pay services to taxpayers and tax professionals who use Fed/State electronic filing and TRD's e-file and e-pay. Refund Express and e-pay services allow tax return filers to electronically deposit refunds into a taxpayer's checking or savings account, or make tax payments directly from a taxpayer's checking account. By using the e-check option, the taxpayer can choose the payment date.

NOTE: A payment made to TRD through the Fed/State program must come from a checking account. TRD can't accept a payment for tax due from a savings account.

Qualifying As An E-File Provider

Before e-filing with the IRS, tax preparation firms must apply for IRS authorization as an IRS e-file provider. Apply as early as possible to make sure you're approved in time for January 1, 2017. No additional application form or application process is necessary for approval to file a New Mexico PIT return through the IRS-approved Fed/State software program.

After receiving acceptance by the IRS, the tax professional, ERO, or transmitter is automatically accepted to file a New Mexico PIT return through the Fed/State program. However, you must make sure the software you use is approved for Fed/State filing by New Mexico. A list of approved software programs is provided on the TRD website.

To find the publication, *Approved Software for Online Filing 2016 Income Tax Forms*, go to www.tax.newmexico.gov and click **TAX PROFESSIONALS**. Then under **ONLINE SERVICES**, click **Tax Professionals**. In the navigation bar, scroll down and click **Software Developers**. Under **Helpful Documents**, click the name of the document.

How do you register to become an authorized IRS e-file provider? Register for e-services and then complete the IRS e-file application available on the IRS website www.irs.gov. See **e-Services** on the IRS tax professional's page, **For Tax Pros**.

Backup Documentation

This section gives information about backup documentation and about e-filing through a third-party software program or through the TRD website.

E-Filing Through A Third-Party Software Program

When e-filing a New Mexico PIT return and its schedules through a third-party software program, you may be required to provide TRD additional documentation to support a claim for a deduction, credit, or rebate. New Mexico PIT returns are now supported in MeF, the new Fed/State e-file format, so you can submit the additional documents with the electronic return if your software supports attachments. In that case, no separate mailing for backup documentation is necessary.

Some New Mexico supplemental forms are available in the software program for electronic completion. If your software supports electronically completed forms, you don't need to mail these forms.

NOTE: When you submit a paper income tax return, you must also attach W-2s and other supporting documentation required by instruction.

E-Filing Through The TRD Website

When e-filing a 2016 New Mexico PIT return and its schedules through the TRD website, and if you're required to provide additional backup documentation to support a claim for a deduction, credit, or rebate, you can provide the backup documentation to us through e-file transmission. The TRD web application guides you through the attachment process.

NOTE: When you submit a paper income tax return, you must also attach W-2s and other supporting documentation required by instruction.

Mailing Backup Documentation And PIT-8453

If you can't electronically complete the required backup documentation or attach it using your software, you must submit by mail any attachments to TRD along with PIT-8453. The paid tax preparer, ERO, or transmitter who e-files a tax return using a tax software program, either on a personal computer or through the New Mexico website on behalf of a taxpayer, must complete PIT-8453. This form also acts as the transmittal or cover page for additional supporting documentation (paper schedules or statements) if these additional documents are required for submittal to TRD.

You only need to mail PIT-8453 to TRD if the return requires additional paper schedules or attachments you can't e-file. If this is the case, mail PIT-8453 with the required supporting documentation to the following address (also printed on the form):

New Mexico Taxation and Revenue Department
P. O. Box 5418
Santa Fe, NM 87502-5418

NOTE: Don't include PIT-1 or Schedules PIT-ADJ, PIT-B, PIT-CR, PIT-D, PIT-RC, and PIT-S.

Acknowledgements Of Receipt Of The Return

Returns e-filed through TAP receive an acknowledgement of receipt of the return. Print the acknowledgement page as verification that TRD received your return. The system provides acknowledgement immediately after you submit a return.

Returns e-filed through the Fed/State program also acknowledge receipt or rejection of returns. New Mexico retrieves PIT returns from the IRS, and then generates and transmits acknowledgements of receipt of the return (or may transmit a rejection of the return) through the IRS within two business days of receipt.

Preparers, EROs, and transmitters may view and retrieve acknowledgements and rejection notices from the IRS. The software you use to e-file the return provides instructions for how to review acknowledgements from TRD.
